Description: The online course will help you identify the best hydrotherapy system based on: age, intended use, design preferences and available space. Also covered are the health benefits associated with each type of system and design considerations for both retrofits and new construction.

I. Hydrotherapy types and their primary benefits
   A. Thermal Therapy
   B. Air Bath Therapy
   C. Whirlpool Therapy
   D. Combination Therapy
   E. Luxury Features and Options

II. Factors including age and desired end use, and their affect on hydrotherapy system specification
   A. Accessibility, Age and Intended Use
   B. Designing for Safety

III. Comprehensive design and development based on required hydrotherapy, and available space
   A. Design Considerations

IV. Design considerations for new construction and retro-fits/redesigns
   A. Retrofit Design Considerations
   B. New Construction Design Considerations
